

FAQs

1. What is a Notary Public?

- A Notary Public is a state-commissioned official who serves as an impartial witness in the signing of important documents. They verify the identity of signers, ensure they are signing willingly and are aware of the contents, and complete the notarization process.

2. What types of documents can you notarize?

- I can notarize a wide range of documents, including real estate documents, power of attorney forms, affidavits, loan documents, contracts, and more. However, I cannot notarize vital records like birth, marriage, or death certificates.

3. What should I bring to my notary appointment?

- Bring the document you need notarized, a valid photo ID (such as a driver's license or passport), and any other signers who need to be present, each with their own valid ID.

4. Do you offer mobile notary services?

- Yes, I provide mobile notary services, which means I can travel to your location for your convenience. This service is available within my operating area and may include an additional travel fee.

5. What forms of identification are acceptable?

- Acceptable forms of identification typically include a government-issued photo ID like a driver's license, passport, or state ID card. The ID must be current, contain your photo and signature, and match the name on the document.

6. Can I get something notarized if I don't have a valid ID?

- If you do not have an acceptable ID, you may be able to use credible witnesses who can vouch for your identity. These witnesses must also have valid identification and meet state requirements.

7. Can you notarize documents for individuals who are not present?

- No, all signers must be physically present during the notarization. Notaries must witness the signing in person to verify identity and ensure that the signer is aware and willing.

8. How much does notarization cost?

- Fees for notarization vary by state law and type of service. I will provide a clear breakdown of the fees before our appointment, including any additional charges for mobile services.

9. Do you offer remote online notarization (RON)?

- Depending on the state regulations, I may offer remote online

notarization, which allows documents to be notarized electronically via a secure video platform. Please contact me to check if this service is available.

10. How do I schedule an appointment?

- You can schedule an appointment by contacting me directly through the website, by phone, or via email. I offer flexible scheduling to accommodate your needs.

11. What if my document has blank spaces?

- All documents must be complete before notarization. If there are blank spaces, the notary may refuse to notarize the document. Make sure your document is fully filled out to avoid delays.

12. Can you help me choose the type of notarization I need?

- While I can explain the different types of notarization, I cannot advise which type you should choose unless I am also a licensed attorney. If you're unsure, it's best to consult with the document drafter or an attorney.
